Vladmir N. Dzhoubinsky, Foreign Minister, Union of East European Soviet Republics, to Wu Fung Tung, Foreign Minister, United Peoples' Republics of East Asia:

15 Jan. 1984

Honored Sir:

Pursuant to our well known policy of exchanging military and scientific information with the Government, of friendly Powers, my Government takes great pleasure in announcing the completely successful final tests of our new nuclear-rocket guided missile *Marxist Victory*. The test launching was made from a position south of Lake Balkash; the target was located in the East Siberian Sea.

In order to assist you in appreciating the range of the new guided missile *Marxist Victory*, let me point out that the distance from launching-site to target is somewhat over 50 percent greater than the distance from launching-site to your capital, Nanking.

My Government is still hopeful that your Government will revise its present intransigent position on the Khakum River dispute.

I have the honor, etc., etc., etc.,

V. N. Dzhoubinsky

Wu Fung Tung, to Vladmir N. Dzhoubinsky:

7 Feb., 1984

Estimable Sir:

My Government was most delighted to learn of the splendid triumph of your Government in developing the new guided missile *Marxist Victory*, and at the same time deeply relieved. We had, of course, detected the release of nuclear energy incident to the test, and inasmuch as it had obviously originated in the disintegration of a quantity of Uranium 235, we had feared that an explosion had occurred at your Government's secret uranium plant at Khatanga. We have long known of the lax security measures in effect at this plant, and have, as a consequence, been expecting some disaster there.

I am therefore sure that your Government will be equally gratified to learn of the perfection, by my Government, of our own new guided missile *Celestial Destroyer*, which embodies, in greatly improved form, many of the features of your own Government's guided missile *Marxist Victory*. Naturally, your own scientific warfare specialists have detected the release of energy incident to the explosion of our own improved thorium-hafnium interaction bomb; this bomb was exploded over the North Polar ice cap, about two hundred miles south of the Pole, on about 35 degrees East Longitude, almost due north of your capital city of Moscow. The launching was made from a site in Thibet.

Naturally, my Government cannot deviate from our present just and reasonable attitude in the Khakum River question. Trusting that your Government will realize this, I have the honor to be,

Your obedient and respectful servant,

Wu Fung Tung

UEESR Foreign Minister Dzhoubinsky to Maxim G. Krylenkoff, Ambassador at Nanking:

3 March, 1984

Comrade Ambassador:

It is desired that you make immediate secret and confidential repeat secret and confidential inquiry as to the whereabouts of Dr. Dimitri O. Voronoff, the noted Soviet rocket expert, designer of the new guided missile *Marxist Victory*, who vanished a week ago from the Josef Vissarionovitch Djugashvili Reaction-Propulsion Laboratories at Molotovgorod. It is feared in Government circles that this noted scientist has been abducted by agents of the United Peoples' Republics of East Asia, possibly to extract from him, under torture, information of a secret technical nature.

As you know, this is but the latest of a series of such disappearances, beginning about five years ago, when the Khakum River question first arose.

Your utmost activity in this matter is required.

Dzhoubinsky

Ambassador Krylenkoff to Foreign Minister Dzhoubinsky:

9 March, 1984

Comrade Foreign Minister:

Since receipt of yours of 3/3/84, I have been utilizing all resources at my disposal in the matter of the noted scientist D. O. Voronoff, and availing myself of all sources of information, e.g., spies, secret agents, disaffected elements of the local population, and including two UPREA Cabinet Ministers on my payroll. I regret to report that results of this investigation have been entirely negative. No one here appears to know anything of the whereabouts of Dr. Voronoff.

At the same time, there is considerable concern in UPREA Government circles over the disappearances

of certain prominent East Asian scientists, e.g.. Dr. Hong Foo, the nuclear physicist; Dr. Hin Yang-Woo, the great theoretical mathematician; Dr. Mong Shing, the electronics expert. I am informed that UPREA Government sources are attributing these disappearances to us.

I can only say that I am sincerely sorry that this is not the case.

Krylenkoff

Wu Fung Tung to Vladimir N. Dzshoubinsky:

21 April, 1984

Estimable Sir:

In accordance with our established policy of free exchange with friendly Powers of scientific information, permit me to inform your Government that a new mutated disease-virus has been developed in our biological laboratories, causing a highly contagious disease similar in symptoms to bubonic plague, but responding to none of the treatments for this latter disease. This new virus strain was accidentally produced in the course of some experiments with radioactivity.

In spite of the greatest care, it is feared that this virus has spread beyond the laboratory in which it was developed. We warn you most urgently of the danger that it may have spread to the UEESR; enclosed are a list of symptoms, etc.

My Government instructs me to advise your Government that the attitude of your Government in the Khakum River question is utterly unacceptable, and will require considerable revision before my Government can even consider negotiation with your Government on the subject. Your obedient and respectful servant,

Wu Fung Tung

Sing Yat, UPREA Ambassador at Moscow, to Wu Fung Tung:

26 June, 1984

Venerable and Honored Sir:

I regret humbly that I can learn nothing whatever about the fate of the learned scholars of science of whom you inquire, namely: Hong Foo, Hin Yang-Woo, Mong Shing, Yee Ho Li, Wong Fat, and Bao Hu-Shin. This inability may be in part due to incompetence of my unworthy self, but none of my many sources of information, including Soviet Minister of Police Morgodoff, who is on my payroll, can furnish any useful data whatever. I am informed, however, that the UEESR Government is deeply concerned about similar disappearances of some of the foremost of their own scientists, including Voronoff, Jirnikov, Kagorinoff, Bakhorin, Himmelfarber and Pavlovinsky, all of whose dossiers are on file with our Bureau of Foreign Intelligence. I am further informed that the Government of the UEESR ascribes these disappearances to our own activities.

Ah, Venerable and Honored Sir, if this were only true!

Kindly condescend to accept compliments of,

Sing Yat

Dzhoubinsky to Wu Fung Tung:

6 October, 1984

Honored Sir:

Pursuant to our well known policy of exchanging scientific information with the Governments of friendly Powers, my Government takes the greatest pleasure in announcing a scientific discovery of inestimable value to the entire world. I refer to nothing less than a positive technique for liquidating rats as a species.

This technique involves treatment of male rats with certain types of hard radiations, which not only

renders them reproductively sterile but leaves the rodents so treated in full possession of all other sexual functions and impulses. Furthermore, this condition of sterility is venereally contagious, so that one male rat so treated will sterilize all female rats with which it comes in contact, and these, in turn, will sterilize all male rats coming in contact with them. Our mathematicians estimate that under even moderately favorable circumstances, the entire rat population of the world could be sterilized from one male rat in approximately two hundred years.

Rats so treated have already been liberated in the granaries at Odessa; in three months, rat-trappings there have fallen by 26.4 percent, and grain-losses to rats by 32.09 percent.

We are shipping you six dozen sterilized male rats, which you can use for sterilization stock, and, by so augmenting their numbers, may duplicate our own successes.

Curiously enough, this effect of venereally contagious sterility was discovered quite accidentally, in connection with the use of hard radiations for human sterilization (criminals, mental defectives, etc.). Knowing the disastrous possible effects of an epidemic of contagious human sterility, all persons so sterilized were liquidated as soon as the contagious nature of their sterility had been discovered, with the exception of a dozen or so convicts, who had been released before this discovery was made. It is believed that at least some of them have made their way over the border and into the territory of the United Peoples' Republics of East Asia. I must caution your Government to be on the lookout of them. Among a people still practicing ancestor-worship, an epidemic of sterility would be a disaster indeed.

My Government must insist that your Government take some definite step toward the solution of the Khakum River question; the present position of the Government of the United Peoples' Republics of East Asia on this subject is utterly unacceptable to the Government of the Union of East European Soviet Republics, and must be revised very considerably.

I have the honor, etc., etc.,

*Letter from the Ameer of Afghanistan to UEESR Premier-President Mouzorgin and UPREA
President Sung Li-Yin:*

26 October, 1984

SHERE ALI ABDALLAH, Ameer of Afghanistan, Master of Kabul, Lord of Herat and Kandahar, Keeper of Khyber Pass, Defender of the True Faith, Servant of the Most High and Sword-Hand of the Prophet; Ph.D. (Princeton); Sc.B. (Massachusetts Institute of Technology); M.A. (Oxford); to their Excellencies A.A. Mouzorgin, Premier-President of the Union of East European Soviet Republics, and Sung Li-Yin, President of the United Peoples' Republics of East Asia,

Greetings, in the name of Allah!

For the past five years, I have watched, with growing concern, the increasing tensions between your Excellencies' respective Governments, allegedly arising out of the so-called Khakum River question. It is my conviction that this Khakum River dispute is the utterly fraudulent device by which both Governments hope to create a pretext for the invasion of India, each ostensibly to rescue that unhappy country from the rapacity of the other. Your Excellencies must surely realize that this is a contingency which the Government of the Kingdom of Afghanistan cannot and will not permit; it would mean nothing short of the national extinction of the Kingdom of Afghanistan, and the enslavement of the Afghan people.

Your Excellencies will recall that I discussed this matter most urgently on the occasions of my visits to your respective capitals of Moscow and Nanking, and your respective attitudes, on those occasions, has firmly convinced me that neither of your Excellencies is by nature capable of adopting a rational or civilized attitude toward this question. It appears that neither of your Excellencies has any intention of abandoning your present war of mutual threats and blackmail until forced to do so by some overt act on the part of one or the other of your Excellencies' Governments, which would result in physical war of pan-Asiatic scope and magnitude. I am further convinced that this deplorable situation arises out of the megalomaniac ambitions of the Federal Governments of the UEESR and the UPREA, respectively, and that the different peoples of what you unblushingly call your "autonomous" republics have no ambitions except, on a rapidly diminishing order of probability, to live out their natural span of years in peace.

Therefore:

In the name of ALLAH, the Merciful, the Compassionate: We, Shere Ali Abdallah, Ameer of Afghanistan, etc., do decree and command that the political entities known as the Union of East European Soviet Republics and the United Peoples' Republics of East Asia respectively are herewith abolished and dissolved into their constituent autonomous republics, each one of which shall hereafter enjoy complete sovereignty within its own borders as is right and proper.

Now, in case either of you gentlemen feel inclined to laugh this off, let me remind you of the series of mysterious disappearances of some of the most noted scientists of both the UEESR and the UPREA, and let me advise your Excellencies that these scientists are now residents and subjects of the Kingdom of Afghanistan, and are here engaged in research and development work for my Government. These gentlemen were not abducted, as you gentlemen seem to believe; they came here of their own free will, and ask nothing better than to remain here, where they are treated with dignity and honor, given material rewards—riches, palaces, harems, retinues of servants, etc.—and are also free from the intellectual and ideological restraints which make life so intolerable in your respective countries to any man above the order of intelligence of a cretin. In return for these benefactions, these eminent scientists have developed, for my Government, certain weapons. For example:

1.) A nuclear-rocket guided missile, officially designated as the *Sword of Islam*, vastly superior to your Excellencies' respective guided missiles *Marxist Victory* and *Celestial Destroyer*. It should be; it was the product of the joint efforts of Dr. Voronoff and Dr. Bao Hu-Shin, whom your Excellencies know.

2.) A new type of radar-radio-electronic defense screen, which can not only detect the approach of a guided missile, at any velocity whatever, but will automatically capture and redirect same. In case either of your Excellencies doubt this statement, you are invited to aim a rocket at some target in Afghanistan and see what happens.

3.) Both the UPREA mutated virus and the UEESR contagious sterility, with positive vaccines against the former and means of instrumental detection of the latter.

4.) A technique for initiating and controlling the Bethe carbon-hydrogen cycle. We are now using this as a source of heat for industrial and even domestic purposes, and we also have a carbon-hydrogen cycle bomb. Such a bomb, delivered by one of our *Sword of Islam* Mark IV's, was activated yesterday over the Northern tip of Nova Zembla, at an altitude of four miles. I am enclosing photographic reproductions of views of this test, televised to Kabul by an accompanying *Sword of Islam* Mark V observation rocket. I am informed that expeditions have been sent by both the UEESR and the UPREA to investigate; they should find some very interesting conditions. For one thing, they won't need their climbing equipment to get over the Nova Zembla Glacier; the Nova Zembla Glacier isn't there, any more.

5.) A lithium bomb. This has not been tested, yet. A lithium bomb is nothing for a country the size of Afghanistan to let off inside its own borders. We intend making a test with it within the next ten days, however If your Excellencies will designate a target, which must be at the center of an uninhabited area at least five hundred miles square, the test can be made in perfect safety. If not, I cannot answer the results; that will be in the hands of Allah, Who has ordained all things. No doubt Allah has ordained the destruction of either Moscow or Nanking; whichever city Allah has elected to erase, I will make it my personal responsibility to see to it that the other isn't slighted, either.

However, if your Excellencies decide to accede to my modest and reasonable demands, not later than one week from today, this test-launching will be cancelled as unnecessary. Of course, that would leave unsettled a bet I have made with Dr. Hong Foo—a star sapphire against his favorite Persian concubine—that the explosion of a lithium bomb will not initiate a chain reaction in the Earth's crust and so disintegrate this planet. This, of course, is a minor consideration, unworthy of Your notice.

Of course, I am aware that both your Excellencies have, in the past, fomented mutual jealousies and suspicions among the several "autonomous" republics under your respective jurisdictions, as an instrument of policy. If these peoples were, at this time, to receive full independence, the present inevitability of a pan-Asiatic war on a grand scale would be replaced only by the inevitability of a pan-Asiatic war by detail. Obviously, some single supra-national sovereignty is needed to maintain peace, and such a sovereignty should be established under some leadership not hitherto associated with either the former UEESR or the former UPREA. I humbly offer myself as President of such a supra-national organization, counting as a matter of course upon the whole-hearted support and co-operation of both your Excellencies. It might be well if both your Excellencies were to come here to Kabul to confer with me on this subject at your very earliest convenience.

The Peace of Allah be upon both your Excellencies!

1.E.2. If an individual Project Gutenberg-tm electronic work is derived from the public domain (does not contain a notice indicating that it is posted with permission of the copyright holder), the work can be copied and distributed to anyone in the United States without paying any fees or charges. If you are redistributing or providing access to a work with the phrase "Project Gutenberg" associated with or appearing on the work, you must comply either with the requirements of paragraphs 1.E.1 through 1.E.7 or obtain permission for the use of the work and the Project Gutenberg-tm trademark as set forth in paragraphs 1.E.8 or

1.E.9. If you wish to charge a fee or distribute a Project Gutenberg-tm electronic work or group of works on different terms than are set forth in this agreement, you must obtain permission in writing from both the Project Gutenberg Literary Archive Foundation and Michael Hart, the owner of the Project Gutenberg-tm trademark. Contact the Foundation as set forth in Section 3 below.

1.F.

1.F.1. Project Gutenberg volunteers and employees expend considerable effort to identify, do copyright research on, transcribe and proofread public domain works in creating the Project Gutenberg-tm collection. Despite these efforts, Project Gutenberg-tm electronic works, and the medium on which they may be stored, may contain "Defects," such as, but not limited to, incomplete, inaccurate or corrupt data, transcription errors, a copyright or other intellectual property infringement, a defective or damaged disk or other medium, a computer virus, or computer codes that damage or cannot be read by your equipment.

1.F.2. LIMITED WARRANTY, DISCLAIMER OF DAMAGES - Except for the "Right of Replacement or Refund" described in paragraph 1.F.3, the Project Gutenberg Literary Archive Foundation, the owner of the Project Gutenberg-tm trademark, and any other party distributing a Project Gutenberg-tm electronic work under this agreement, disclaim all liability to you for damages, costs and expenses, including legal fees. YOU AGREE THAT YOU HAVE NO REMEDIES FOR NEGLIGENCE, STRICT LIABILITY, BREACH OF WARRANTY OR BREACH OF CONTRACT EXCEPT THOSE PROVIDED IN PARAGRAPH F3. YOU AGREE THAT THE FOUNDATION, THE TRADEMARK OWNER, AND ANY DISTRIBUTOR UNDER THIS AGREEMENT WILL NOT BE LIABLE TO YOU FOR ACTUAL, DIRECT, INDIRECT, CONSEQUENTIAL, PUNITIVE OR INCIDENTAL DAMAGES EVEN IF YOU GIVE NOTICE OF THE POSSIBILITY OF SUCH DAMAGE.

1.F.3. LIMITED RIGHT OF REPLACEMENT OR REFUND - If you discover a defect in this electronic work within 90 days of receiving it, you can receive a refund of the money (if any) you paid for it by sending a written explanation to the person you received the work from. If you received the work on a physical medium, you must return the medium with your written explanation. The person or entity that provided you with the defective work may elect to provide a replacement copy in lieu of a refund. If you received the work electronically, the person or entity providing it to you may choose to give you a second opportunity to receive the work electronically in lieu of a refund. If the second copy is also defective, you may demand a refund in writing without further opportunities to fix the problem.

1.F.4. Except for the limited right of replacement or refund set forth in paragraph 1.F.3, this work is provided to you 'AS-IS' WITH NO OTHER WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PURPOSE.

1.F.5. Some states do not allow disclaimers of certain implied warranties or the exclusion or limitation of certain types of damages. If any disclaimer or limitation set forth in this agreement violates the law of the state applicable to this agreement, the agreement shall be interpreted to make the maximum disclaimer or limitation permitted by the applicable state law. The invalidity or unenforceability of any provision of this agreement shall not void the remaining provisions.

1.F.6. INDEMNITY - You agree to indemnify and hold the Foundation, the trademark owner, any agent or employee of the Foundation, anyone providing copies of Project Gutenberg-tm electronic works in accordance with this agreement, and any volunteers associated with the production, promotion and distribution of Project Gutenberg-tm electronic works, harmless from all liability, costs and expenses, including legal fees, that arise directly or indirectly from any of the following which you do or cause to occur: (a) distribution of this or any Project Gutenberg-tm work, (b) alteration, modification, or additions or deletions to any Project Gutenberg-tm work, and (c) any Defect you cause.

Section 2. Information about the Mission of Project Gutenberg-tm

Project Gutenberg-tm is synonymous with the free distribution of electronic works in formats readable by the widest variety of computers including obsolete, old, middle-aged and new computers. It exists because of the efforts of hundreds of volunteers and donations from people in all walks of life.

Volunteers and financial support to provide volunteers with the assistance they need, is critical to reaching Project Gutenberg-tm's goals and ensuring that the Project Gutenberg-tm collection will remain freely available for generations to come. In 2001, the Project Gutenberg Literary Archive Foundation was created to provide a secure and permanent future for Project Gutenberg-tm and future generations. To learn more about the Project Gutenberg Literary Archive Foundation and how your efforts and donations can help, see Sections 3 and 4 and the Foundation web page at <http://www.pgla.org>.

Section 3. Information about the Project Gutenberg Literary Archive Foundation

The Project Gutenberg Literary Archive Foundation is a non profit 501(c)(3) educational corporation organized under the laws of the state of Mississippi and granted tax exempt status by the Internal Revenue Service. The Foundation's EIN or federal tax identification number is 64-6221541. Its 501(c)(3) letter is posted at <http://pglaf.org/fundraising>. Contributions to the Project Gutenberg Literary Archive Foundation are tax deductible to the full extent permitted by U.S. federal laws and your state's laws.

The Foundation's principal office is located at 4557 Melan Dr. S. Fairbanks, AK, 99712., but its volunteers and employees are scattered throughout numerous locations. Its business office is located at 809 North 1500 West, Salt Lake City, UT 84116, (801) 596-1887, email business@pglaf.org. Email contact links and up to date contact information can be found at the Foundation's web site and official page at <http://pglaf.org>

Section 4. Information about Donations to the Project Gutenberg Literary Archive Foundation

Project Gutenberg-tm depends upon and cannot survive without wide spread public support and donations to carry out its mission of increasing the number of public domain and licensed works that can be freely distributed in machine readable form accessible by the widest array of equipment including outdated equipment. Many small donations (\$1 to \$5,000) are particularly important to maintaining tax exempt status with the IRS.

The Foundation is committed to complying with the laws regulating charities and charitable donations in all 50 states of the United States. Compliance requirements are not uniform and it takes a considerable effort, much paperwork and many fees to meet and keep up with these requirements. We do not solicit donations in locations where we have not received written confirmation of compliance. To SEND DONATIONS or determine the status of compliance for any particular state visit <http://pglaf.org>

While we cannot and do not solicit contributions from states where we have not met the solicitation requirements, we know of no prohibition against accepting unsolicited donations from donors in such states who approach us with offers to donate.

International donations are gratefully accepted, but we cannot make any statements concerning tax treatment of donations received from outside the United States. U.S. laws alone swamp our small staff.

Please check the Project Gutenberg Web pages for current donation methods and addresses. Donations are accepted in a number of other ways including checks, online payments and credit card donations. To donate, please visit: <http://pglaf.org/donate>

Section 5. General Information About Project Gutenberg-tm electronic works.

Professor Michael S. Hart is the originator of the Project Gutenberg-tm concept of a library of electronic works that could be freely shared with anyone. For thirty years, he produced and distributed Project Gutenberg-tm eBooks with only a loose network of volunteer support.

Project Gutenberg-tm eBooks are often created from several printed editions, all of which are confirmed as Public Domain in the U.S. unless a copyright notice is included. Thus, we do not necessarily keep eBooks in compliance with any particular paper edition.

Most people start at our Web site which has the main PG search facility:

<http://www.gutenberg.org>

This Web site includes information about Project Gutenberg-tm,

including how to make donations to the Project Gutenberg Literary Archive Foundation, how to help produce our new eBooks, and how to subscribe to our email newsletter to hear about new eBooks.
